

For my  
Father  
With  
Loving Thoughts  
On Father's  
Day

HAPPY FATHER'S DAY  
HAPPINESS ALWAYS

Dad,

Well here we go with another  
messy Father's Day card - I picked  
this special card out because it  
talks about everything "we <sup>share</sup> still - as  
I know we always will". Even though you're  
still so far away, I feel very close  
to you (with some exceptions), but the  
closeness that I feel certainly does  
not make up for not being able to  
see you whenever I want! I miss you  
so much and I love you twice as  
much! At least you have one of your  
children here for you for Father's  
Day! Wish I could be there!

I think of things you said and did  
When I was just a little kid,  
Of everything I learned from you  
And your example as I grew —  
I think of all we both share still,  
Just as I know we always will —  
I think of you and send your way  
My love and thanks on Father's Day!

XOXO  
Kathleen
